Dnutch Associates Inc. was founded in 1993 by a core of expert software and network engineering professionals. As a company, we have successfully made the transition from the commercial sector to the state, federal, and defense sectors. Today, we provide technical services, management, and products; within the domains of software development, network infrastructure, and enterprise applications integration. We provide valuable leadership and support to companies and government programs where leading-edge technology solutions are mission-critical.

Dnutch employs a holistic and disciplined technical and management approach to the IT program lifecycle. Our approach emphasizes best practices, quality and cost-efficiency. Moreover, programs and tasks are managed by a senior staff of subject matter experts that average 20 years of experience. Our goal is to provide best-in-class solutions, products, and services of the highest quality; and to deliver significant value to our customers so that we earn their respect and loyalty. Dnutch Associates Inc. maintains offices in Massachusetts and a business development office in Washington, D.C.
